

Strategic automation through human connection

Customized API-based EDI integration with your Microsoft Dynamics 365 for Finance and Operations

Your Enterprise Resource Management (ERP) system is the lifeblood of your business processes, facilitating your operations across every department within your organization.

But what about your interactions with partners *outside* of your organization?

Powerful and automated ERP & EDI integration

At Vantree, we help you efficiently, reliably, and automatically import and export documents to and from your trading partners with Electronic Data Interchange (EDI), using the same Microsoft Dynamics 365 for Finance and Operations interface that you work with every day.

The results are **improved data accuracy, faster data exchanges, and improved operational efficiencies.**

You have **more visibility** into your data, **fewer errors** in shipping and billing, and you **increase the speed** by which you send and receive documents and data with your trading partners.

The value of Vantree

We deliver automation engagements through human connection. Driven by a partner-for-life ethos and a relentless curiosity, we craft strategic automation engagements – delivered through a hands-on, human approach – that support and drive your business, and empower your growth through loyalty and long-term relationships.

UNPARALLELED SERVICE

We aim to go above and beyond what you expect. We do what it takes to ensure that you trust that we understand your business.

We strive to be the best vendor you have ever partnered with.

ADVANCED TECHNOLOGIES

Our proprietary software allows us to develop customized solutions that lead to deeper integrations, in less time.

We strive to deliver technologies that give you a competitive advantage.

INDUSTRY EXPERTISE

Our steadfast focus on the future keeps us ahead of trends and helps us to exceed your expectations. Our boundless creativity is driven by a deep passion for innovation.

We strive to help you see further.

A different way of doing business

Our teams work as an extension of your teams: they'll know your business inside and out and will be with you for the lifetime of our partnership. They work with you to fully customize your solution for deep integration, based on your business, your trading partners, and your document needs.

You'll have worry-free 24/7 visibility into your critical data, as we take care of the end-to-end management throughout your entire project lifecycle.

- **OPTIMIZE YOUR WORKFLOWS** with increased efficiency.
- **STRENGTHEN YOUR RELATIONSHIPS** with cleaner data, fewer errors, and faster reaction times.
- **INVEST IN YOUR FUTURE** by anticipating growth, freeing up resources, and future-proofing your business.

Vantree & Microsoft Dynamics 365 F&O – How it works

The core of our integration solution is the Vantree Connectivity Suite (VCS), which sits between you and your trading partners and automates the integration, translation and delivery services of EDI and non-EDI documents to and from your MS Dynamics F&O.

Any document, from any partner

Our hands-on, personal approach and proprietary software allows our team to design a fully customizable solution for your company, down to each trading partner relationship and each document type. Any environment. Any trading partner. Any document.

Invoice	→	810 Invoice

Item Master/Warehouse Inventory	←	846 Inventory Report

Familiar interface, simple functionality

With all functions fully integrated into your familiar MS F&O there's no new interface to learn, and our automated processes and the intuitive layout of your Vantree Workspace make it simple to import, analyze, and process incoming documents.

Most common automation/validation rules

- Allow Duplicate Order
- Check Discount Threshold
- Validate EDI Price to Finance and Operations Price
- Match EDI Unit of Measure to Sales Unit of Measure
- Lookup Price
- Populate Customer Specific Packaging from Item Master into Sale Orders

For example, the Summary Tile section in the Vantree Workspace shows 1 document with an error, 1 validation pending. With Vantree, the actions required for each instance are intuitive and easy to complete. You have full visibility into your data and any errors or omissions in that data as well as full control over correction and processing.

Powerful insights, actionable intelligence

Your Vantree Workspace also contains insightful summaries of documents processed, and documents received by customer, along with Charts that highlight further important insights.

Getting started

We've been a trusted EDI solutions provider since 1994, specializing in complex EDI integrations for manufacturing and distribution, and have a strong embedded solution with Microsoft Dynamics 365 for Finance and Operations. We have deep experience working with 1,000+ trading partners worldwide, and we're ready to work with you.
